HOW TO SEND YOUR LOG TO VOLTA ROBOT

Any problem or doubt? Send an e-mail to our Log's checker ik2lol@contestvolta.it

SIX EASY RULES

1. <u>CABRILLO for VOLTA</u>: Please send your log in VOLTA CABRILLO layout (see
   www.contestvolta.it/ → Main & news → Cabrillo layout)

2. <u>LOG's FILE NAME</u>: simply name your log as: YOURCALL.LOG (example: I2DMI.LOG)
   Any other suffix (.txt .cbr .rtf .doc a.s.o.) will be ignored by the ROBOT. And your e-mail
   will be considered as "SPAM". If you are portable use the minus in place of the slash.
   Example: EA8/I2DMI.LOG   becomes EA8-I2DMI.LOG ; K2DMI/9.LOG becomes
   K2DMI-9.LOG

3. <u>CATEGORIES</u>: We do not have different categories for *low/high power, cluster/no cluster* or
   single/multi TX. **Do not add other info** like HIGH/LOW POWER, ASISTED/NOT
   ASSISTED a.s.o.   Please write your category in the Cabrillo file in the "CATEGORY:" row.
   Valid categories are **only**:
   - **3.1. SINGLE-OP ALL** (or SOAB)
   - **3.2. SINGLE-OP 10M - SINGLE-OP 15M - SINGLE-OP 20M - SINGLE-OP 40M - SINGLE-OP 80M**
   - **3.3. MULTI-OP** (or MO)
   - **3.4. SWL**
   - **3.5. CHECKLOG** (or CHECK)

4. <u>MESSAGE OBJECT</u>: please write only your **callsign** and your **category**
   (example I2DMI SINGLE-OP 20M or I2DMI MULTI-OP or I2DMI SINGLE-OP ALL)

5. <u>MESSAGE BODY</u>: do not include any message in the e-mail's body sent to the ROBOT. It
   will be discarded and nobody will read it. For any question or problem with your log send an e-
   mail to our Log Checker ik2lol@contestvolta.it

6. <u>CONFIRMATIONS from the ROBOT</u>: you'll receive two message from the robot.
   - **6.1.** first one for successful or unsuccessful **delivery only of the LOG**
   - **6.2.** second one containing the errors' **diagnostic found in your log.**
   - **6.3.** if you get warning errors, you can correct them and **send again your log**. The robot
     will replace any previous log sent with the last one received.
     There are no risks for duplicated submission.
